LOSES PART OF BRAIN; KEEPS HIS PACULTIES

NEW YORK, May 15.—With four ounces of his brain removed, Jacob Ritz, 22 years old, of Brooklyn, is preparing to leave St. Mary's hospital, apparently in good health and in possession of all his faculties. The operation was performed by the surgeons of the hospital, and is regarded as having been entirely successful.

successful.

Ritz shot himself in the head with a revolver on April 3, the bullet entering the side of his head. A tumor formed between the brain and the wall of the skull and pressed upon the fron-tal lobes.

In removing this, it was found necessary to take out about four ounces of brain matter. Because of the course the bullet had taken, it was thought that Ritz's senses of sight and taste had been impaired. Tests, how-ever, showed that these had not been affected.

GLITTERING DIAMONDS PROVE NO ATTRACTION TO SALOONMAN'S WIFE

At the regular weekly divorce matine Priday afternoon Judge Morse granted four divorces, heard two orders to show cause, and took the testimony in an additional case, in which a decree will be entered as soon as proper service is shown.

Hannah A. Rockwell told the court that she was married to R. E. Rockwell, a carpenter, November 20, 1907. She also made the court sequainted with the fact that Rockwell was a monumental failure as a provider. From the date of their marriage, Mrs. Rockwell said, her husband never gave her any money and never bought her any clothing. At the same time, she added, he purchased no provisions for the household.

"Do you desire to ask for alimony?" was asked of Mrs. Rockwell by her attorney.

"No, it wouldn't do any good," she replied.

Upon corroborative testimony being given as to Bockwell's failure to provide for his wife the decree was granted.
